Flags is a thinking game where you are presented with a random flag, and you must guess which country it belongs to. There are six main game modes: 1. Country from flag: You see a flag and guess the country. 2. Country from name: You see a country name and guess the flag. 3. Country from description: You see a description of a country and guess the flag. 4. Country from flag and name: You see a flag and a country name, and guess the flag. 5. Country from flag and description: You see a flag and a description, and guess the flag. 6. Country from name and description: You see a country name and a description, and guess the flag.

Similarly but in reverse: The game will show you a country name and present you with three flags to choose from. The quicker you answer, the more points you will earn. And the more questions you get right without hints, the more points you will earn.
