Cross-progression! With this option the most unlockable items will be shared across all devices. You can access your account on a PC, console, and mobile devices. For instance, you can use your account on a PC and then use it on a mobile device. Mobile requires a device with at least 2GB RAM and 3MB of storage space. You may not have the latest

version from The Google Play Store.

We understand your concern about being forced to install the Microsoft Authenticator app to access your business email. However, Microsoft has implemented this security measure to ensure the safety and security of your business email account.

I am being forced to install the MS Authenticator app to access my work email. Can I use my phone to access my work email?
